

In the course of two preceding articles upon the subject of Reciprocity, we have endeavored to show—first, the effect of such a treaty on the commercial interests of the Colony; and—second, the beneficial results which in our opinion must accrue to our productive interests from the admission of coal, lumber, oil, fish and agricultural products into all the American Pacific ports free of Customs' duties. This we have asserted, and brought forward in support of that assertion, the wonderful growth of Canada in material wealth during ten years of Reciprocity with the United States; and the only objection we have heard advanced to the scheme as proposed to be applied to this Colony is the probable injury to the farmer, whose prospects under Free Trade were blighted, and who has only just begun to recover from its evil effects. Strike from the list agricultural products, and all are assured the measure would prove highly beneficial; but include them among the articles to be admitted, and agriculturists are expected to "set their faces as flints" against the scheme. Now, if parties interested in agricultural pursuits were to give the proposed scheme a moment's consideration, they would discover that their position under Free Trade was widely different to what it would be under Reciprocity. Free Trade beckoned across the Straits the surplus products of the American farmer; but when the Colonial farmer sought to trade in the American market he was driven away by the Customs' laws. Reciprocity, on the other hand, proposes to only admit free here what is admitted into the neighboring States free; consequently, our farmer would enjoy as fair a chance abroad as at home, besides having the satisfaction of seeing, with an increased demand for coal, lumber, &c., larger and more remunerative markets springing up around him and enhancing the value of his land by their contiguity. Suppose, however, a system of limited reciprocal trade possible, we do not think we should offer the slightest objection to the exemption of agricultural products from its operation, notwithstanding our firm belief that in its effects it would prove as beneficial to the farmer as to the collier, the lumberman, or the fisherman. It is only in the event of a broad principle of Reciprocity being insisted upon that we should urge the inclusion of agricultural products; for the farmer cannot expect to be made the object of class legislation and to stand in the way of the consumption of a great public good, any more than the interests of the merchant were considered when Union and Tariff were brought on the political carpet. We all remember how lustily the Country then called out against the policy of the Town, and how quickly the interests of the latter went to the wall. But we entertain no hope of the passage of a limited scheme; and as to a separate treaty (which has also been proposed), the failure of the effort made by Prince Edward's Island, with her wealth of fish to offer, in the same direction last summer, ought to convince the most ardent advocate of Isolation that such a scheme would be utterly impracticable. And it is our firm belief that if Reciprocity is obtained by us it will be on precisely the same footing as that obtained by Canada, or not at all.

The Necessity for Disinfecting Agents.
EDITOR BRITISH COLONIST:—I hope that measures are being taken to have the houses tainted with the late prevailing epidemic, Small Pox, thoroughly cleansed and purified from any latent virus. Should this be left unattended to, it is very probable that upon a change of occupants, and the approach of warm weather in the spring, a fresh development of this lurking poison will manifest itself, and then ———. The rest I leave for the public to fill in themselves.

CHLORINE.
European Mail Summary.
Grain riots are said to have occurred in some parts of Central India. The want of rain throughout the upper provinces had created apprehensions of famine both in British territory and the native States of Rajpootana, in Central India. Instructions have been issued to all the authorities as to the course to be pursued. Rain, however, has fallen in many places, and the prospects are much better.
The latest accounts from China and Japan, says the *Pull Mall Gazette* of the 20th, show the prospects of the Christian missionaries to be anything but encouraging in those countries. At Yangchow, Mr Taylor, the head of the Protestant mission, and his party have narrowly escaped death at the hands of a mob of infuriated Chinese, some thousands strong, who attacked and burned the mission house, and a decree laying the Christian religion under a formal interdict has been posted up at Honam and the gates of Yokohama. The plebeians describe Christians as the "devilish sect." The British and American Consuls have actively interfered on behalf of the injured missionaries.

ST ANDREW'S ANNIVERSARY DINNER.

As stated in our brief notice yesterday, over forty gentlemen sat down to the Anniversary Dinner of this excellent Benevolent Society. Upon the company assembling in the ante-room, the newly elected officers for the ensuing year (names already published), were installed by the Rev Thos Somerville, whose short addresses to each, as he bestowed the badge of office, were both appropriate and witty. The head of the table was occupied by Alexander Watson, Esq., President, supported on the right by the Honorable the Chief Justice, Dr Tolmie, Mr Somerville, and on the left by His Worshipful the Mayor and Mr Suiter, President of the Caledonian Society, Messrs Findlay and Robert Wallace acting as Vice-Presidents. The dinner being prepared by Driard with his usual liberality and good taste needs no commendation; but the efficient manner in which the guests were waited upon added to the pleasure of the party and deserves praise. The official toasts were those common to such occasions, and were both ably proposed and responded to by the gentlemen to whom they were intrusted, accompanied, in each case, by an appropriate air from the orchestra. The Queen, The Prince and Princess of Wales, The Army, Navy and Volunteers, His Excellency the Governor, The Mayor and Council, St Andrew's Society, The Caledonian Society, Sir James Douglas, Brethren of St Andrew where'er they may be, The Press, The Commercial and Mining Interests, The Agricultural Interests and The Ladies were the principal toasts, with a number of subsidiary ones between the intervals. As already intimated the speaking generally was far above the average of such occasions, and though the topics introduced and discussed took a range beyond what convivial parties would strictly demand, it was marked throughout by strong good sense, and a total freedom from offence. In support of this we may refer to the speech of the Chief Justice, for the Army, Navy and Volunteers; of Dr Tolmie, for the Caledonian Society; of Mr Gray, for the Press; of Mr Somerville, for the absent Brethren of St Andrew; of Mr Findlay, for the Commercial and Mining Interests; of Mr Orr, for the Agricultural Interests; and of Mr Gillon, for the Ladies. The pleasure of the evening was well sustained by excellent Scotch and English songs, recitations from Burns, and an abundance of racy fun, until an early hour in the morning. His Excellency the Governor and Sir James Douglas both sent apologies regretting their inability to be present; their absence was equally regretted by the Society. So ended the ninth anniversary dinner of St Andrew's, which, for the number present, and the spirit exhibited, was far in advance of several years past. We feel assured that the recollection of this agreeable evening will not soon pass from the minds of those present.

TAXES TO BE INCREASED.—A well informed gentleman, now in Washington city, in a letter dated Oct 9, 1868, states that the opinion is general that "the next Congress will have to increase the present rates of taxation or permit the Government credit to sink. The Secretary of the Treasury of course, will express no opinion on the subject until the meeting of Congress, knowing well as he does that in case he sets forth the facts, the radicals would charge him with having gone the length of assailing the public credit to serve party purposes."—Walla Walla Statesman.

CONFIDENCE SHAKEN.—A San Francisco paper says that since the late earthquake parties who had previously contracted to buy land in that city have refused to comply with the terms of their engagements. From this it would seem that in the general shaking up all confidence in the value of land within the city limits is destroyed. The people of San Francisco feel that they are liable at any moment to be "allowed up by an earthquake, and hence there is an indisposition to make further investments in real estate."—Walla Walla Statesman.

NEW WINTER GOODS.—Received per Express yesterday at Victoria House their usual assortment of Fall Millinery, comprising the latest styles in Hats and Bonnets, Trimmings and flowers, Chignons and Head Dresses, &c. A case of choice Furs also received—embracing Sable, Oribé and other fashionable kinds. A few elegant articles suitable for presents, such as Lace Trimmed Handkerchiefs, Collars, Portmonnaies, Reticules, etc, also on hand.

NOTHING PERSONAL, WE TRUST.—One of the best things at the St Andrew's dinner on Monday night was attaching the air of 'We're a noddin' to the toast of The Mayor and Council. We cannot pretend to say whether the thing was intentional, but certainly the incident, from the perfect storm of applause which followed, appeared to be hugely relished.

The bark Amethyst and ship Isaac Jeans are loading at Bellingham Bay with coal for San Francisco.

TELEGRAPHIC.—A new telegraph office was opened at Utealady, W T, last week, and the offices at Sehome, Semiahmoo and New Westminster have been re-opened for the transaction of business. Superintendent Lamb returned to this city yesterday from the Sound. The line is still down between San Juan and Swinomish in W T, owing to the late severe gales.

THE BRIDGE ACROSS ROCK BAY will be closed for repairs, and the passage of vehicles, for about five days, commencing tomorrow morning; and the bridge across The Arm will be closed for a few days next week. During this temporary suspension of traffic, wagons will find a portage necessary at either end of the bridges, or must send and receive goods via water.

THE RACE.—The match for \$250 a side between Volreeco and Lucy came off yesterday. Although a good race up to within a quarter of a mile from home, Lucy won at last by three lengths. Considerable money changed hands. The owner of Volreeco seems to think there must be something in Vogel's beer that gives speed to a horse.

THE NEW COLOURS.—The fashionable shades in Europe this season are the Florence—a rich ruby; the Grenat a darker shade; a very brilliant Green—and various tints of Amber. Some very choice goods in these beautiful colours have been received at the London House by the Continental.

Our 'neck and buskin' friend, R G Marsh, sends us from Shanghai a *Newsletter*, the contents of which, however are anticipated by dates received via San Francisco, but the sender has our thanks for his courtesy, nevertheless.

QUARANTINED.—The bark Fremont and ship David Hoadley both from San Francisco are quarantined—the former at Port Townsend and the latter at Port Gamble—each having a case of Small Pox on board.

POLICE COURT.—Henry King appeared before this Court yesterday in answer to a charge of assault upon John Fitzallen on the 27th ult. King was fined \$10, or in default of pay it to be imprisoned seven days.

MOE. LIKELY.—Alexander Dumas, it is said, cannot remember the names of half the books he has written. Few of his readers can recollect anything very good that they contain.

SAILED.—The Continental left for Portland yesterday morning, and the Active in the evening. The latter took about fifteen passengers, most of whom only leave us temporarily.

The new and extensive mill and shipyard at Tacoma, Commencement Bay, W T, have been commenced by Charles Hanson & Co, of San Francisco.

FROM THE SOUND.—The steamer Eliza Anderson arrived yesterday morning from Port Townsend, bringing fifteen passengers and a good freight of cattle and produce.

FOR THE MAINLAND.—The steamer Enterprise left for New Westminster yesterday morning with a few passengers and about fifty tons of freight.

QUEEN ISABELLA.—The reign of the Spanish Queen was longer than is generally thought. She occupied the throne precisely 35 years to a day.

COUNTY COURT.—This Court is adjourned until tomorrow at 12 o'clock.

OVERLAND RAILWAY.—There are 15,000 men employed in the construction of the Overland Railway. It is encouraging to those who are in constant communication with the Eastern Markets to know of such an early prospect of greater future dispatch. Had this line been completed three months since, we should have been able before this date, respectively to call the attention of the public to the great variety of Styles, and the Choice Patterns of the best Sheffield Pocket Cutlery. Scissors, &c, ex 'Boivia.'—T. N. HIBBEN & Co.

The Horrors of Dyspepsia

And the dismal train of disorders to which it leads, are averted by the use of HOSTETTER'S BITTERS as a preventive, or cured with astonishing celerity by its direct and genial operation upon the stomach, the liver, and the nervous system.

The Shaking Martyrs

Of Fever and Ague, instead of being dosed for months with quinine, to the injury of the general health, are promptly set upon their feet again, without danger of a relapse, by this prompt remedy for every kind of Intermittent. Taken as a safeguard against miasma, it renders an attack of Chills and Fever absolutely impossible.

If you are Bilious,

There is nothing that touches the Liver, the seat of the malady, so quickly, and restores it so certainly to a perfectly healthy and regular condition, as HOSTETTER'S BITTERS. If of a "bilious habit," the tendency of your system to that form of disease may be held in check for a lifetime by the occasional use of this harmless vegetable antidote.

After an attack of Sickness,

When the animal powers are exhausted, the pulse weak, the mind depressed, and all the powers of vitality at a low ebb, there is no restorative comparable with the BITTERS. They renovate every organ, gently stimulate the circulation, improve the quality of the blood, clear the clouded brain, and impart to the trembling nerves stability and firmness. Sold by all Druggists.

HOLLOWAY'S PILLS.—Invalids distracted by indigestion and discouraged in their search for its remedy should make trial of this never-failing medicine. A lady, long a martyr of dyspeptic tortures, writes that Holloway's Pills made her feel as if a burden had been taken off her. Her spirits, formerly low, have greatly improved; her capricious appetite has given place to healthy hunger; her dull, sick headache has departed, and gradually so marvellous a change has been effected, that she is altogether a new creature, and again fit for her duties. These Pills may be administered with safety to the most delicate. They never act harshly, nor do they ever induce weakness; they rightly direct deranged, and control excessive action.

CHINA AND JAPAN.

By the steamer Ohina we (S F Alta) have Hongkong dates to October 15th and Yokohama dates to the 28th.

Japan.

The following summary of news is from the *Japan Gazette* of October 27th:

A loan has been effected of considerably over half a million of dollars from the Oriental Banking Corporation to the Japanese Government, the principal security being a lien on the Custom House receipts. The exact particulars are not known.

There was a small difficulty a few days since between the Dutch officials and the Japanese authorities, which led to the extraordinary act on the part of the latter forbidding the transaction of any business at the Custom House for Dutch subjects. It was however quickly settled when a more experienced Japanese official took it in hand, who at once acknowledged his colleagues to be in the wrong, and expressed regret at the misunderstanding.

In our last we mentioned that Yodo was to be opened on the 1st of October. That day arrived and sped, and Yodo is still closed; and it is uncertain as to when it will be thrown open.

A gentleman, conversant with every portion of the city, gives the following note from his own observation lately:—Yodo looks empty and dismal. In the official quarter, formerly so lively, hardly a human being is to be seen. The grass grows luxuriantly in the principal streets of that region, and even on the roofs of the palaces of the highest dignitaries. The bronze insignia and other metal ornaments at the gateways of the palaces have been torn off, the windows smashed, and the walls fallen to ruins. To add to the appearance of desolation, several roads are washed away by the incessant rain, and a great many bridges are impassable.

On the arrival of the prince's norimon (chair), the gate was opened, grates on its hinges, and immediately closed; while the poor wretches of retainers, cold, wet, dirty and shivering, were allowed to remain in the open air, while the keen north wind half cut them in two and the rain fell in torrents.

In the Honcho or Main street, black lacquered boards were posted up, on which, in large white painted characters, the people were notified that his Majesty the Mikado was coming to reside in Yodo. It seems that there is some truth in this notification, as it is rumored that the palace in Yodo is undergoing extensive repairs. It is, however, very extraordinary that streets and bridges should be allowed to remain in their present miserable condition, if the Sovereign is really expected—as it has always been the rule in Japan to have all roads made sound and well cleaned on the approach even of the Tycoon.

The *Herald* of the 17th of October gives the following particulars of the loss of H. M. S. Rattler in Romazoff Bay, four or five miles north of Hakodadi.

On the 24th of September, at 6 o'clock A. M., when off Cape Soya, and under an easy pressure of steam, with not a single ripple on the water to indicate any approaching danger, the vessel struck violently on a reef of submerged rock.

Strenuous efforts were at once made, engines were reversed, and every available measure adopted, in the endeavor to get her off, without the slightest success; in fact, it was quickly discovered that the famous Rattler was doomed to become a total wreck. She had run into a gap or fissure in the rocks, and was irrevocably fixed until she is broken up by the waves, to founder in pieces in the deep water close to the reef. Fine weather prevailed during the day, and no immediate danger to life was apprehended, but at night the wind from the S W freshened and the sea commenced to rise, causing the vessel to thump with crushing effect. As she began to list rapidly immediate measures were then taken for the safety of the crew, and as much baggage and provisions as time would permit were removed twenty-four hours after she struck; this was accomplished and all were soon in safety on shore, some with their kits and some without, but with a few days' provisions for the whole crew.

The city of Neogata has been partially burnt down, and the Southern army after throwing a few shells and shot into the town, took possession of it without any very serious conflict, the Northerners having decamped quietly. We hear from very good authority that the Northern party have resumed possession of it after driving away from its suburbs, at the point of the bayonet, the allies of the Tokugawa enemy. Every hope is now being entertained by natives themselves of Aliza's intention of turning his armies in this direction, while the strategem which we know he has been putting in execution since his taking the field leads us to believe that he will yet be victorious.

China.

The news from China is rather meagre. The gold mines of Chefoo are still attracting much attention.

A correspondent writes: 'There are now nearly forty miners out; and they must be doing well, for the other day a train of twelve mules went out to them with provisions. Strange to say, we cannot find out how much gold they get; but they must certainly find a considerable quantity, for the cost of their living, etc., cannot be less than a dollar and a half a day each. A party has just left for Pingto, to investigate the gold mines there.'

Paymaster Harris, of H M S Rodney, was drowned by the upsetting of a boat, Oct 3, in the harbor of Woosung.

Some banditti were beginning to create disturbances in the neighborhood of Tien-chuang tai, an important mart on the Liao, eighty 4 above Yientze. The Taotai despatched one hundred of the disciplined troops against them, and succeeded in effecting the capture of three ringleaders. Two were at once decapitated at Yangtze, and the third detained in prison in the hope that information might be extorted from him.

The Shanghai Recorder of Oct 8th has the following:—We hear upon authority which we believe to be reliable that the Chinese officials have despatched 700 Imperial troops from Tientsin in a sailing vessel to Chefoo to proceed thence to the Gold Diggings and 'drive away the foreigners.' We understand that these troops first desired to take passage in one of Messrs Russell & Co's steamers, but that the price asked for conveyance, namely, £3,000, was considered too high, and they therefore resolved to take a sailing ship. The consequences of this step are likely to be serious, as it is not by any means improbable that the diggers may offer resistance; or if they do not, that the Chinese may go further than the necessities of the case may require, and not content themselves as they should, with merely bringing the men to their Consul, provided they do not offer resistance.

Hon J Ross Browne lately visited Shang-

hai, and the *New Letter* says that he met with quite a serious accident during his visit, while out driving. An incriminated tar, going probably in the direction said to be taken generally by a 'sailor on horseback,' drove his fiery steed into the vehicle in which Mr Browne was sitting, causing the horse to take fright and run away. Mr Browne managed to get out over the back of the carriage but was thrown on the ground as he alighted. He received several bruises about the head and face, but fortunately none of a serious nature. He started off to the North next morning.

Canadian Mail Summary.

[DATES TO NOV. 6.]

The second session of the Ontario Legislature opened Nov. 3d, with the usual military display. The galleries of the House were crowded with ladies and gentlemen, clergymen of all denominations, and the benches were well represented. On the floor there was a good attendance of the members. In his speech his Excellency Governor Howland recommended several important measures of liberal character, among which the extension of the free grant system; the amendment in the election law, so that all the elections for the Legislative Assembly be held simultaneously; the bill rendering office-holders under the Dominion or provincial governments ineligible to Parliament; the modification of existing mining laws; the location of the Asylum for Deaf and Dumb; the removal of convict lunatics from jails. He expressed the hope that the arbitration debts between Ontario and Quebec would shortly be settled.

Considerable excitement was caused at St John, N. B., on the 3d Nov., in consequence of the abduction, by the United States officials, of a man named Mills. Mills, it appears, had been indicted for some offence, and set at liberty on bail. Not appearing when wanted, the detectives traced him to St. Johns. The Chief of Police was applied to, but refused to interfere. The assistance of one of the city marshals was, however, obtained, when Mills was handcuffed and taken on board of an American schooner, just about to start.

The Hon Joseph Howe has published a letter at Halifax saying that he has accepted the Union on trial for a few years, and that he is dealing with the difficulties around him with an eye solely to the good of the country. He adds, that treason and filibustering expeditions to tear the provinces to pieces are not included in his programme. He furthermore says that three peaceful measures are open to the people of Nova Scotia: first, an appeal to the new Government and Parliament of England; secondly, an attempt to revive the old scheme of union of the maritime provinces; third, negotiations with Canadians for a readjustment of the terms upon which Nova Scotia was forced into the Confederation.

The Anti-Unionists do not look upon Mr Howe's letter with favor. They say annexation may be talked in some quarters, but it is not the policy of the party, and there is no occasion for arguing against a Nova Scotian war with England—a scheme which no sane man would entertain. They think the letter evades the main question—whether Mr Howe supports the Local Government repeal policy. Unionists regard the letter as a further indication that Mr Howe does not support the Government in their policy.

The Fenian movement is looked upon as played out on the Eastern frontier. Even the Presidential election has given it no vitality. When that is over, it will be completely dead.

The Sheriff's returns of the Inverness election give Mr McDonald 969; Blainchard 945; majority 24 for the Anti-Confederates.

O'Leary, the phrenologist, gave a lecture recently in Halifax "to ladies only." It was discovered that two men dressed in female attire were present; they were obliged to leave, and while doing so were loudly hissed by the ladies present.

The exhibitors of Miss Swan, the Nova Scotia giantess, did not make enough money in New Brunswick to pay expenses. The St John Telegraph understands that a Mr Ross has engaged the giantess "to exhibit in the Upper Provinces, where as a specimen of a female Nova Scotia Repealer she will strike terror to the souls of the haughty tyrants."

Col. Monck, brother of Lord Monck and his Military Secretary, is likely to continue in the same position to the coming Governor, Sir John Young, and will, no doubt, be useful from his experience and knowledge of the country.

It is reported here that the instructions for the recall of the troops came by cable direct to Sir Charles Wyndham—the usual course having hitherto been a reference to the Governor General before changes are made.

The steamer Grecian struck in ascending Gallop's rapids in the St Lawrence on the 30th Oct, the water being unusually low. Capt. Kelly ran her into the bay and grounded her. She has knocked holes through freight and fire hatch, and the water being about fourteen feet deep at stern, the stern has settled down to the promenade deck. The ferry boat from Prescott is alongside and will save most of her cargo. The passengers are forwarded by train.

The Montreal Banks have declared the following dividends: The Bank Jacques Cartier a dividend of 8 per cent per annum. The City Bank of 4 per cent for the half year, and the Bank of Montreal five.

Halifax has subscribed \$1,800 for the relief of the Red River people.

The friends of Mr Wm. Harrison, late postmaster, &c., at Oil Springs, has just been informed that he was lost overboard from the Constitution, a steamship of the Pacific Steamship Company's line, on the 10th of October. Deceased left for Cali-

fornia in June last, and was on his return home when, within two days' sail of Panama, he was swept overboard during a gale. Boats were let down and efforts made to save him, but to do so was found impossible. Mr Harrison was one of the firm of G H Leslie & Co., druggists, of Yorkville, and father-in-law of the principal.

A sad and singular occurrence happened in the township of Beverly, on Sunday afternoon, by which death was caused in a remarkable manner. A party of boys were amusing themselves in a blacksmith shop, experimenting with a new pair of bellows that had not yet been set up for use. One of the number, a son of Mr Joseph Kibby, about ten years of age placed his mouth over the blow pipe, when another lad compressed the bellows with all his force, sending a powerful draught of air into the lungs of his companion. Young Kibby immediately sank down in a lifeless state, and did not recover his breath again, although medical assistance was soon procured and every effort made to restore him to animation.

At the York election Oct. 20th, Mr Pickard, the member elect, delivered an address in which he stated that he should go to Ottawa as an independent member, and would support or oppose the Government according to its acts. He had never approved Confederation, but it having been accepted by the people, he would do his best to render it successful.

DELAYED DISPATCHES.

Eastern States.

New York, Nov 26—The *Herald's* Washington special gives what purports to be the substance of a conversation between Minister Johnson and Lord Stanley, which secured the approval of the British Government and is now under the consideration of the President. All claims are to be submitted to a commission of three persons—two of whom are to be selected by Queen Victoria and one by the President—to meet in Washington. It shall examine and decide according to justice and equity, without fear, favor or faction. In case the commissioners are unable to agree upon any claim they shall select as arbitrator some Sovereign of Europe friendly to both Governments whose decision shall be final and absolute.

New York, Nov 25—A heavy northwest snow-storm has prevailed since daylight.

WASHINGTON, Nov 26—A dispatch says that the British Legation has at length produced a bill against the U S Government, as an offset to the Alabama claims, amounting to forty-five millions; this being the amount of damages alleged to have been sustained by British subjects in the South during the rebellion.

The Russian Legation deny that two millions of the Alaska purchase money has been expended in securing the good will of Senators and Congressmen for the passage of the Appropriation bill. Six millions of the purchase money has been paid.

Europe.

LONDON, Nov 28—A terrible explosion has occurred in the Orley colliery. Three hundred men were at work in the pit at the time; most, if not all of whom, perished. Thirty-two bodies have thus far been recovered. Hundreds of the relatives and friends of the unfortunate miners are gathered at the mouth of the pit, and the scene is heart-rending.

There is no excuse for those who drag their weary and disordered bodies into our company when a few doses of AVER'S SARAPARILLA would cleanse their murky blood and restore their health and vigor. Ye muddy victims of bilious disease, have some regard for your neighbors, if not for yourselves.

FRED PAYNE has removed his Cheap Shaving Shop to the opposite side of Johnson street, just above the Miner's Saloon.

HOSTETTER'S CELEBRATED STOMACH BITTERS!

A PURE AND POWERFUL TONIC! CORRECTIVE AND ALTERNATIVE

Of Wonderful Efficacy in Diseases OF THE STOMACH, LIVER AND BOWELS.

PROTECTIVE PROPERTIES. Prevents Fever and Ague and Bilious, Remittent Fevers Fortifies the System against Miasma and the evil effects of an unwholesome water; invigorates the organs of digestion and the bowels, Strenues the Nerves and Tends to Prolong Life.

REMEDIAL PROPERTIES. Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or PRODUCED BY SPECIAL CAUSES.

As a genuine Tonic, HOSTETTER'S BITTERS produces effects which must be experienced or witnessed before they can be fully appreciated.

Persons of feeble habit, liable to Nervous Attacks, Losses of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes. In districts infested with Fever and Ague, it has been found infallible as a preventive and irresistible as a remedy. Thousands who resort to it if under apprehension of an attack, escape the scourge; and thousands who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvelous medicine.

Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretory organs.

SOLD EVERYWHERE! HOSTETTER, SMITH & CO. DRUGGISTS,

THE KING OF PERFUMES.

THE VICTORIA PERFUMERY is now adopted by
the ELITE of the aristocracy and fashionable world
on account of the superior articles for the toilet
each of which has been made a speciality.

The new perfumes prepared with the ESSENCE
of YLANGYLANG extracted by distillation from
the YLONA ODORATISSIMA and imported from
the Philippine islands are beyond comparison for
their delicacy and sweetness. We therefore re-
commend the BEAU MONDE to try as a handker-
chief perfume.

THE EXTRACT OF YLANGYLANG
AND
THE MANILLA BOUQUET

Besides these, which are the exclusive property
of their house, Messrs Rigaud and Co prepare in
a most approved and superior manner all the fash-
ionable scents, amongst which we may mention the

Eau Bouquet Wood Violet Mignonette
Jockey-Club Marchale Jossamine
New Mown Hay Mousseline Magnolia
Field Flowers Rondeletia Moss-Rose

RIGAUD'S TOLUTINE

Is an admirable toilet-water, the true talisman
of beauty, preserving the freshness of the skin
and the fairness of the complexion. It is the per-
fection of science adapted to the toilet, and is in-
contestably superior to Eau de Cologne, or the
most esteemed of vinegars and the Florida
water.

THE MIRANDA HAIR-OIL AND
POMATUM.

Is a remarkable preparation which may be
called a real treasure for the hair. It is com-
posed of tonic and fortifying compound, and it
beautifies and preserves the hair at the same time
as it imparts to it a most refreshing perfume.

MIRANDA SOAP,

COMPOSED MAINLY OF THE MILK OF THE
LETTUCE AND THE LILY.

A simple comparison of this soap with others
sold by the perfumery trade, suffices to prove its
superiority. It gives the skin a deigh
surface, it lathers abundantly, forming a real
milk-bath, and is all that can be desired as to
perfume.

DENTORINE

AND TOOTH-PASTE

THE DENTORINE is a pleasant elixir for the
teeth; it perfumes and refreshes the mouth,
strengthens the gums and prevents decay.

THE TOOTH-PASTE has made quite a revolution
in this class of toilet necessary, and has done away
with powders and opiates that are more or less
acid and dangerous. A brush passed over it pro-
duces a soft and unctuous mucilage that gives the
teeth a brilliant whiteness.

THE ROSE POWDER

Preserves the skin from the roughness of the
wind and the cold, gives it a soft freshness, and
prevents red spots and freckles. It is far superior
to rice and starch powders, and it is deliciously
perfumed.

Premium Purchasers of Two Articles of
RIGAUD & CO., are entitled to
receive Gratuitously the

LITTLE MONITOR,

A Guide to the Toilet, with PHOTOGRAPHIC

French Medicines,
PREPARED BY
GRIMAULT & CO.

Chemists to H.I.P. Prince Napoleon,
PARIS.

These different medicines represent the most recent
medical discoveries, founded on the principles of Chem-
istry and Therapeutics. They must not be confounded
with secret or quack medicines, as their names suffi-
ciently indicate their composition; a circumstance which
has caused them to be appreciated and prescribed by the
Faculty in the whole world. They widely differ from
those numerous medicines advertised in the public
papers as able to cure every possible disease, as they are
applicable only to but a very few complaints. The most
stringent laws exist in France with regard to the sale of
medical preparations, and only those which have under-
gone an examination by the Academy of Medicine
and have been proved efficacious, either in the hospitals
or in the practice of the first medical men, are authorised
by the Government. This fact must be a guarantee for
the excellence of Messrs. Grimault & Co.'s Medi-
cines.

NO MORE COD LIVER OIL!

**Grimault's Syrup of Iodized
Horse Radish.**

This medicine has been administered with the utmost
success in the Hospitals of Paris. It is a perfect substi-
tute for Cod Liver Oil, and has been found most benefi-
cial in Diseases of the Chest, Scrofula, Lymphatic
Disorders, Green Sickness, Muscular Atony,
and Loss of Appetite. It regenerates the constitution
in purifying the blood, it being the most powerful
depurgative known. It has also been applied with happy
results in Diseases of the Skin. Further, it will be
found to be of great benefit to young children subject to
Humors and Obstructions of the Glands.

CONSUMPTION CURED!

**Grimault's Syrup of Hypo-
phosphite of Lime.**

This new medicine is considered to be a sovereign
remedy in case of Phthisis and other Diseases of the
Lungs. It promptly removes the most serious symp-
toms. The cough is relieved, night perspirations cease
and the patient is rapidly restored to health.
N.B.—Be sure to see that the signature of Grimault
& Co. is affixed to the bottle, as this Syrup is liable to
imitations.

**NO MORE DIFFICULT OR PAINFUL
DIGESTION!**

DR BURIN DU BUISSON'S
(Laureate of the Paris Imperial Academy of Medicine)

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the
most reputed medical men in France in cases of derange-
ments of the digestive organs, such as

Gastritis,
Gastralgia,
Long and Laborious Digestion,
Wind in the Stomach and Bowels,
Emaciation,
Jaundice, and
Complaints of the Liver & Lungs

**NERVOUS HEADACHE,
NEURALGIA,
DIARRHOEA, DYSENTERY,**

INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazil
has been employed since time immemorial to cure
Inflammation of the Bowels. It has proved to be
of the greatest service in cases of
Cholera, as it is a preventive and a cure in cases of
Diarrhoea.

NO MORE COPAIBA OR CUBEBS!

**Grimault's Capsules and
Liquid Extract of Matico
Vegetalis.**

Where all other preparations have failed these prepar-
ations will always effect a cure. These insure rapid and
extraordinary cure of severe recent and chronic cases of
private diseases. They are used in the hospitals of Paris
by the celebrated Dr Ricard, and found greatly superior
to all hitherto known mineral remedies and Copal and
Cubebs. The Injection is used in recent, and capsules;
more chronic cases.
